PROFILE SUMMARY

As a Computer Science student and results-driven Front-end Developer with a proven track record in developing and executing successful projects. Seeking a challenging role to contribute skills in real-world projects, collaborate on impactful initiatives, and apply problem-solving abilities to elevate project quality.

WORK EXPERIENCE

CodSoft Technologies   2024- PRESENT

Web Developer Intern

- Calculator Application: Developed a fully functional calculator using HTML, CSS, and JavaScript. Implemented user-friendly features such as real-time calculation updates and responsive design to ensure usability across devices.
- Portfolio Website: Created a personal portfolio website to showcase projects and skills, employing modern web design techniques and best practices for responsive design.
- Integrated front-end functionalities such as form validation, real-time data binding, and live previews, allowing users to see instant updates to their resumes.

CERTIFICATES

Core & Advanced Java - **Ypsilon IT Solution**

- Completed the Core Java Certification, which provided a comprehensive understanding of Java programming fundamentals. This certification covered key areas such as object-oriented programming, data structures, algorithms, exception handling, multithreading, file I/O, and utilization of the Java Standard Library.

Microsoft Azure Fundamentals

- Certification covered core Azure concepts, services, solutions, and management tools, as well as general cloud computing principles. Acquired skills in working with Azure services such as virtual machines, storage, and databases, as well as understanding Azure pricing, support, and compliance.
